

Owner's Manual and Installation Guide

CM925

Flexible Gooseneck PDA Car Mount Kit

INSTRUCTIONS

1. Loosen the passenger seat bolt nearest console, insert the enclosed bracket and retighten the seat bolt.
2. If necessary, reposition the angle of the arm bracket by changing the screw location.
3. Screw phone holder plate (if necessary) onto phone cradle. (reference AP012)
4. Place the male female T-groove on the cradle onto the male T-groove PDA / phone pedestal.

For the optional console mount, connect the Base plate onto the floor or console, and screw in the gooseneck pedestal.
(Note- this procedure will require drilling into your vehicle, and it's a permanent mount)

5. Do not twist the cradle on top of the pedestal to adjust the steel shaft, as this will cause the T-groove on the back to break; In order to reposition the cradle, use the wing nuts on the mounting head to change to the desired position of the cradle. If you wish to adjust the shaft, hold the steel shaft with both hands while bending into the desired position.

Features:

Arkon's Universal Flexible Mounting Kit mounts various handheld devices on the base of the passenger seat in your vehicle. The flexible pedestal shaft allows for varying directional positioning.

CONTENTS:

- Universal Mount Cradle (CM090)
