

GN097-USB | Lighter Socket Mount with USB Power for Garmin GPS

GN097-USB
Lighter socket mount
for Garmin

Package Contents:

(1) GN097-USB - 12V / Lighter socket mount with USB power outlet

Specs: Input (12V - 24V) outlets, Output (5V, 500mA)

Make sure the power mentioned in the specs is compatible with your device prior to use.

 Do not place mount in or near an air bag deployment zone or where it will obstruct view of the road.

Mount Installation Instructions

Step 1. Insert the DC Power plug (A) completely into the vehicle's 12V / lighter socket.

Step 2. Adjust the angle of the pedestal arm by tightening the adjustment knob (B) to the desired placement angle.

Step 3. If necessary, adjust the rotation of the mounting head by tightening the screw (C) with a screwdriver.

Step 4. Adjust the angle of the 17mm ball by tightening the wing nut (D) to the desired mounting angle.

Garmin Device Attachment

Step 1. Attach the USB power connector to the device or cradle (not included) before inserting the mount ball into the Garmin device.

Note: The mini USB power connector will only power / charge your device. Inserting the power connector in a mini USB sync port (if it has one) will not provide power to the device.

Step 2. Carefully insert the ball into the cavity of your Garmin device or cradle. Rotate and adjust angles as needed.

Safety Precautions

Do not install Arkon products over an air bag cover or within the air bag deployment zone. Arkon Resources, Inc. assumes no responsibility of liability for injury or death as a result of car crashes and/or air bag deployment.

Arkon is not responsible for any damages caused to your car, your device, or yourself due to the installation or use of this pedestal mount.
