Installation Instructions

Air Vent Mount Assembly, Plate Attachment, and Installation

Step 1. Attach the vent mounting clips (A) to the back of the pedestal (B) with the vent clips positioned with the flat sides facing up.

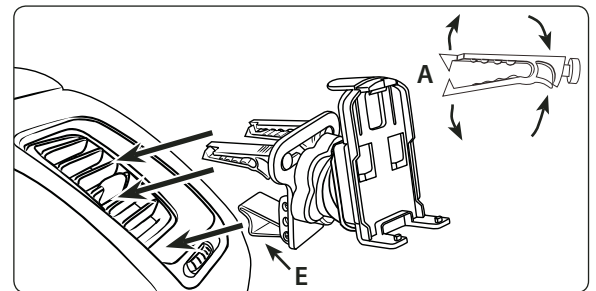

Step 2. Attach the dual T-tabs (C) on the pedestal into the dual T-slots (D) on the back of the adapter plate.

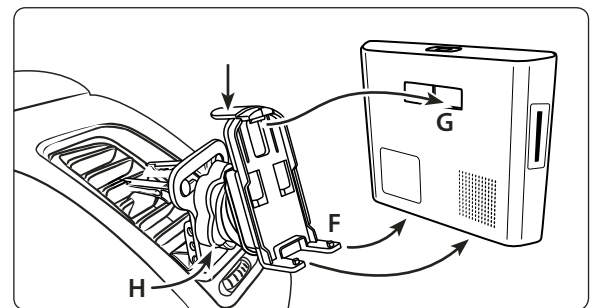

Step 3. Pinch the vent mounting clips (A) so that the teeth open and gently insert vent pedestal into vent louvres until the mounting clips are attached to the fin/blade of the vent. Adjust the support leg (E) vertically until it rests firmly along the bottom of the vent or dash surface below the vent.

Continued on next column...

GPS Device Attachment

Step 1. With the air vent pedestal installed, attach the GPS device (not included, sold separately) by placing the feet (F) of the adapter into the corresponding notches on the bottom of the device. Holding the thumb tab down, insert the upper tooth (G) into the recessed slot on the back of the device.

Step 2. Adjust the lateral angle and the rotation of the pedestal head by loosening the swivel tightening ring (H).

 Use caution when adjusting or removing the pedestal. Make sure that the teeth of the vent clips are opened wide enough to not damage vent.

 **Safety Precautions**
Follow all manufacturer safety guidelines for operating your device. Failure to practice safe usage of GPS device while driving may result in damage, injury, or death. Do not install Arkon products over an air bag cover or within the air bag deployment zone.

Arkon is not responsible for any damages caused to your car, your device, or yourself due to the installation or use of this pedestal mount.
