

SR012 | Deluxe Weighted "Friction Style" Dash Mount for Satellite Radio

Patent Pending

CM012 with CM014-1
Weighted "Friction Style"
Dash Mount with Pedestal
and Adhesive Safety Hook

Single T to 4
Hole AMPS
adapter Plate

Package Contents:

- (1) CM012 - Weighted "friction style" dash mount
- (1) CM014-1 - Suction pedestal with lateral T head
- (1) AP012 - 2-way single T to 4 hole AMPS adapter plate
- (1) Optional adhesive safety hook (recommended but not required)
- (1) Alcohol cleaning pad

Compatible with:

- XM and Sirius satellite radio devices

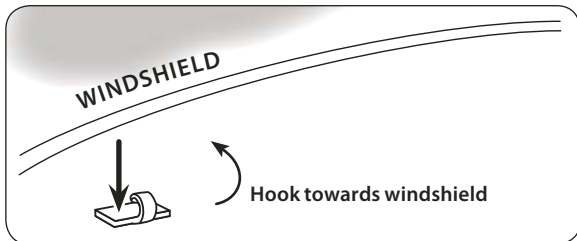

Do not place mount in or near an air bag deployment zone or where it will obstruct view of the road.

Dash Mount Installation

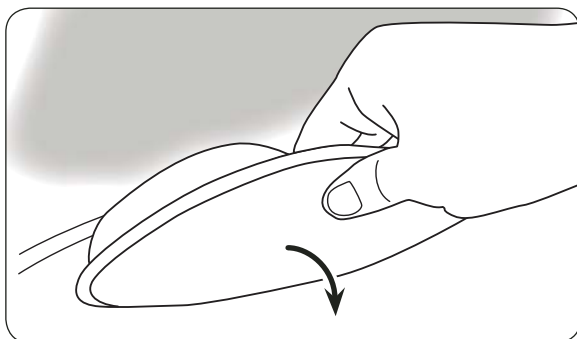

- Step 1. Find a safe location on the vehicle dash that is not in an air bag deployment zone.

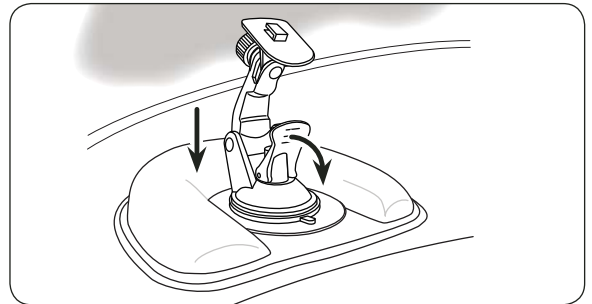

- Step 2. **Optional Safety hook installation will add extra stability.** Clean the area with the included alcohol pad and let dry. Remove the adhesive backing on the safety hook base. The hook curve must point towards the windshield. Press and hold the hook down on the dash surface for about a minute. Allow 24 hrs. to cure to the dash at room temperature (72° F).

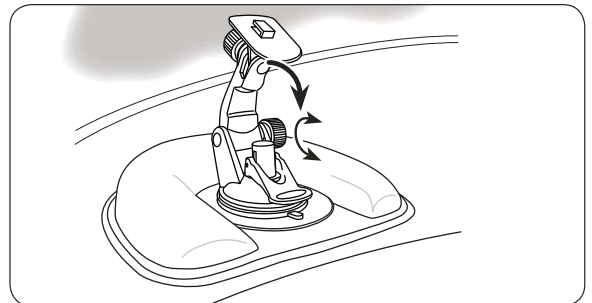

- Step 3. Place the loop on the back of the dash mount around the safety hook and place on the dash in front of the hook.

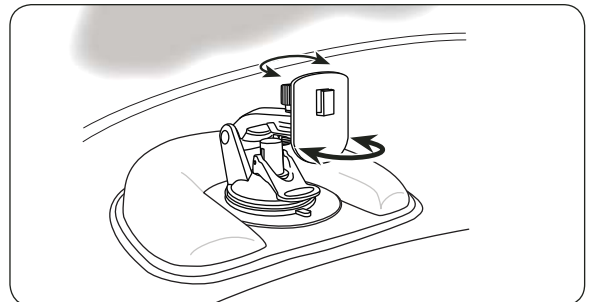

- Step 4. Lower the pedestal onto the disc and press down firmly. Flip the locking lever down to secure the pedestal to the dash mount.

- Step 5. Adjust the angle of the arm by tightening the rotation knob.

- Step 6. Adjust the lateral angle of the pedestal head by tightening the head adjustment knob.

Safety Precautions

Do not install Arkon products over an air bag cover or within the air bag deployment zone. Arkon Resources, Inc. assumes no responsibility of liability for injury or death as a result of car crashes and/or air bag deployment.

Arkon is not responsible for any damages caused to your car, your device, or yourself due to the installation or use of this pedestal mount.
