Do not place mount in or near an air bag deployment zone or where it will obstruct view of the road.

Drilling into the dash, floor, or console will permanently damage the vehicle. Use caution and consult a mobile install professional to avoid drilling into the gas tank, electrical system or other highly sensitive vehicle components.

Dash or Console Adhesive Mounting

- Step 1. Find a safe location on the dash or console to mount the pedestal. Make sure the area is clean and dry. Use the included alcohol pad to clean the mounting surface.

- Step 2. Remove the adhesive backing (A) under the triangular pedestal and firmly press into place.

- Step 3. After adhesive has bonded at room temperature (approx. 72° F), allow 24 hours prior to use for best results.
- Step 4. Adjust the angle of the pedestal head by firmly holding the base and rotating to the desired angle.

Dash or Console Screw Mounting (Optional)

- Step 1. Find a safe location on the dash or console to mount the pedestal. Make sure the area is clean and dry. Use the included alcohol pad to clean the mounting surface. Remove the adhesive backing (A) under the triangular pedestal and firmly press into place.
- Step 2. Using a screwdriver, tighten the 3 screws (B) through the pedestal base into the mounting surface. Adjust the angle of the pedestal head by firmly holding the base and rotating to the desired angle.

Adapter Plate Connection and Device Insertion and Removal

- Step 1. Connect the dual T-slots (C) on the back of the adapter plate to the dual T-tabs (D) on the dash pedestal head.

- Step 2. While holding the mounted adapter plate, gently insert the device (not included, sold separately) into the adapter plate until an audible click is heard. The device can then be rotated into the desired viewing angle.
